Additional Features

I. Safe Box

- This feature gives you flexibility to accumulate your survival income benefit instead of encashing it when due. When this is opted, Survival benefit will be transferred to safe box. The option can be useful when you do not require the survival benefit immediately and wish to accumulate it in the safe box.
- In order to opt in or opt-out of this option, you need to submit a request to the company 30 days before the policy anniversary and will get in-force immediately.
- This option can be chosen or cancelled anytime during the policy term.
- You can choose to accumulate your applicable Income benefit in any proportion and balance shall be paid to you on the applicable dates.
- Interest Accrual: The accrued income will be accumulated at interest rate equal to the Reverse Repo Rate published by RBI plus 0.25% and this rate will be reviewed annually. Any change in basis shall be with prior approval of the Authority. The interest would be accrued on daily basis and compounded on half-yearly basis. The 'Reverse Repo Rate' for the financial year ending 31st March (every year) will be considered. As the interest rate will be reviewed at the beginning of each financial year, any change in this interest rate will be applicable from 1st April to 31st March every year. The current Reverse Repo Rate, as applicable at 31st March 2023, is 3.35% p.a.
- You will have an option to withdraw money completely or partially as per your needs any time during the policy term. The balance amount will keep accumulating and accrued income benefit (if any) shall be payable along with benefits at the time of termination of the policy on death or maturity or surrender whichever is earlier.
- You have the option to utilize the accumulated amount in safe box to offset future premiums to be paid.

II. Save the Special Date to receive the Survival Benefit

- You will have an option to receive the Survival Benefit on any one date succeeding the due date of first income to coincide with any Special Date as per your choice instead of policy anniversary. The income is payable on the date of policy anniversary by default.
- This Special Date can be any date that falls within 365 days after first income due date, such as spouse's birthday, parents' anniversary, child's birthday etc.
- All survival benefit payouts shall be made on the chosen date. It can be deferred but not advanced.
- In such a case, the survival benefits applicable for the policy year when it is due, would be increased for the period between the policy anniversary and the Special Date, by accumulating the benefit as per interest accrual section of "accumulate the income option in safe box". However, the last instalment due on end of the policy term shall be paid on the date of Maturity only, and not on Special Date.
- In order to opt in or opt-out of this option, policyholder should submit a request to the company 30 days before the policy anniversary and will get in-force immediately.
- This option is available only for income options – Immediate income and Deferred Income

III. Premium Offset

- This option allows you to offset the due premium against the accrued income receivable as well as the income accumulated with the company along with the interest in the "safe box".
- If the benefit payout exceeds the premium payable under the policy, the company shall pay such excess to the policyholder.
- However, if the benefit payable is not sufficient to offset the premium payable under the policy, then, the policyholder will be required to pay the balance premium to the company.
- The benefit will be deemed as paid and the premium to the extent offset with the income will be considered received when this option is exercised.
- In order to opt in or opt-out of this option, you should submit a request to the company.

IV. High Premium Benefit

You will get extra benefit by paying higher premium in form of increase in maturity benefit.

The maturity benefit will increase by below percentages.

Premium bands/Option	Immediate Income	Deferred Income	Twin Income
Less than 1 Lakh	0%	0%	0%
1 Lakh to less than 2 Lakhs	3.00%	2.25%	3.25%
2 Lakhs and above	3.50%	3.00%	4.50%

What Happens in case of missed Premiums?

We give you a Grace Period of 30 days in case of Quarterly/ Half-yearly or Yearly Premium Payment mode and 15 days in case your Premium Payment mode is Monthly to pay the due premium. This period starts from the due date of each premium payment.

However, if you fail to pay your premiums before the expiry of the grace period,

- If the due premium is not paid for the first two years: Your policy will lapse.
- If the premium has been paid for at least first two full years and subsequent premiums are not paid: Your policy will continue with reduced benefits (as a Reduced Paid-up policy)

Your life cover will continue during this grace period. If death occurs during the grace period, the Death Benefit under the policy will be paid after deductions of premiums then due and all premiums falling due and unpaid during the policy year of death.

What happens once your policy Lapses or becomes Reduced Paid-Up?

A. Lapse:

If the due premiums for the first two consecutive full policy years have not been paid within the grace period, then the policy will lapse.

Life cover will cease, and no benefits shall become payable under the lapsed policy.

B. Reduced Paid Up:

If the premiums have been paid for at least first two consecutive full years and subsequent premiums are not paid, then the Policy will acquire Reduced Paid-Up status as mentioned below:

- **Death Benefit for Reduced Paid-up policy:**

On death of the Life Assured during the Policy Term, the Paid-Up Sum Assured on Death (as defined below) shall become payable, and the contract ceases immediately.

Paid -up Sum Assured on Death

=

$$\frac{\text{Total Number of premiums paid}}{\text{Total Number of premiums payable}}$$

×

Sum Assured on Death

- **On Maturity of Reduced Paid-up policy:**

On survival of the Life Assured to the end of the policy term, the Paid-Up Maturity Benefit (as defined below) shall become payable and the contract ceases immediately.

$$\text{Paid -up Maturity Benefit} = \frac{\text{Total Number of premiums paid}}{\text{Total Number of premiums payable}} \times \text{Guaranteed Maturity Benefit}$$

- **Surrender Benefit under Reduced Paid up policy**

On surrender of Reduced Paid-up policy, the Higher of Guaranteed Surrender Value or Special Surrender Value, and contract gets terminated.

- **Survival Benefit under Reduced Paid up policy:**

$$\text{Reduced Paid-up Guaranteed Income} = \frac{\text{Total Number of premiums paid}}{\text{Total Number of premiums payable}} \times \text{Guaranteed Income}$$

$$\text{Reduced Paid-up Loyalty Income} = \frac{\text{Total Number of premiums paid}}{\text{Total Number of premiums payable}} \times \text{Loyalty Income before acquisition of reduced paid-up status}$$

Can you restore your Lapsed/Reduced Paid up policy to the original benefit levels?

You have an option to revive a lapsed policy and Reduced Paid-Up policy within a period of 5 years from the due date of the first unpaid premium, subject to satisfactory proof of insurability as required by us from time to time.

The revival of the policy is subject to the submission of the satisfactory medical evidence as per the Board approved underwriting policy applicable at that time. The cost of the required medical examination, if any will be borne by the Life Assured / Policyholder.

You can revive your Lapsed/Reduced Paid up by following these simple steps:

- Giving a written request to the Company within 5 years from the due date of first unpaid premium and producing a proof of continued insurability
- Paying the outstanding premium amount with the applicable interest rate, currently 9% p.a. compounded on half yearly basis for FY 23-24.

The prevailing interest rate is calculated as equal to 10-year G-sec benchmark interest rate as on last working day of the previous financial year +1.50%, rounded up to the next multiple of 25 basis points and will be compounded on half yearly basis. The 10-year G-Sec rate on 31st March 2023 was 7.31% and the rate of interest for revival for FY 23-24 is 9% (7.31% + 1.5% + rounding to next multiple of 25 basis points). Any change in basis shall be with prior approval of the Authority. The Company will review the revival interest rate on every 1st of April.

Upon revival of a policy all the benefits will be restored including the income benefit. In case of revival of a lapsed policy, all the Survival Benefits payouts as applicable and due while the policy was in lapsed status shall be paid out as lump sum on the date of revival.

In case of revival of a paid-up policy, all the Survival Benefit payouts as applicable and due for an In-force policy minus any paid-up Survival Benefit payouts already paid while the policy was in Paid-Up status, shall be paid out as a lump sum on the date of revival.

Can the plan be discontinued in between?

Life insurance works best if you pay regularly and for the long term.

However, in case of an emergency/ contingency, you can surrender your policy anytime during the Policy Term, provided it has acquired Surrender Value. Policy acquires Surrender value after payment of first two consecutive full policy years' premiums.

Surrender Benefit:

Surrender Value payable would be higher of "Guaranteed Surrender Value (GSV)" and "Special Surrender Value (SSV)" if premiums have been paid for at least first two consecutive full policy years.

Guaranteed Surrender Value (GSV) is defined as,

$$\text{GSV} = \left\{ \text{GSV Factor} \times \text{Total premiums paid till the date of surrender} \right\} - \left\{ \text{Survival benefits paid till the date of surrender} \right\}$$

Guaranteed surrender value factors will be attached in the policy document.

Special Surrender Value:

Special Surrender value will be calculated using the basis and formula as approved by IRDAI. The Special Surrender Value may be amended by the Company from time to time with prior approval of IRDAI.

Are there any Riders available?

No riders are available under this product.

What if you realize this is not the right plan for you?

Freelook: If you disagree to any of those terms or conditions in the policy, you have an option to return the policy to us within 15 days (30 days, if the policy is opted through Electronic Mode/ Distance Marketing mode) from the date of the receipt of the policy document, stating the reasons for your objection. In this case we will return your premium as follows – Premium paid less:

- i. Proportionate risk premium for the period on cover
- ii. Expenses incurred by us on medical examination, if any
- iii. Stamp duty charges

Distance Marketing mode includes every activity of solicitation (including lead generation) and sale of insurance products through the following modes: (i) voice mode, which includes telephone-calling (ii) short messaging service (SMS) (iii) electronic mode which includes e-mail and interactive television (iv) physical mode which includes direct postal mail and newspaper & magazine inserts and (v) solicitation through any means of communication other than in person.

Modes of the premium payment frequency available under this plan

Modes of premium payment frequency available under this plan are: Yearly, Half-Yearly, Quarterly, Monthly
Policyholder has the choice to select the premium payment frequency as per his /her convenience.

Below factors are applied to annual premium when policyholder paying premiums other than yearly mode.

Mode of Premium	Modal Factor
Yearly	1
Half Yearly	0.5108
Quarterly	0.2582
Monthly	0.0867

Terms & Conditions

(A) Policy Loan:

In emergency conditions, when you require funds to meet some unexpected expenses. we provide loans against the policy. Loans will be available only after the policy acquires surrender value, by assigning the policy document as a collateral security.

The loan can be availed up to 70% of the Surrender Value at applicable interest rate levied by the Company.

The prevailing interest rate is calculated as equal to 10 year G-sec benchmark interest rate as on last working day of the previous financial year +1.50%, rounded up to the next multiple of 25 basis points and will be compounded on half yearly basis. The 10 year G-sec rate as on 31st March 2023 was 7.31%. The rate of interest on loan for FY 2023-24 is 9% and will be compounded on half yearly basis (7.31% + 1.5% + rounding to next multiple of 25 basis points).

The interest rate will be reviewed by the Company every year, and the revised loan interest rates will become applicable effective 1st April. The basis of calculation of loan interest rates may be revised by the Company from time to time depending on the then interest scenario in the market after obtaining prior approval from the Authority.

The outstanding accumulated with interest will be adjusted towards the Guaranteed Income. The loan outstanding along with accumulated interest will be adjusted against Death Benefit and Guaranteed Maturity Benefit.

For inforce and fully paid-up policy: Policy can't be foreclosed on the ground of outstanding loan amount including interest exceeds the surrender value.

For other than in-force and fully paid-up policies: The policyholder will be given written notice when the outstanding loan amount including interest is 95% of the surrender value. The policyholder may repay whole or part of the outstanding loan amount. At any point in time, if the loan outstanding along with accumulated interest exceed the applicable Surrender Value, the Policy will be foreclosed immediately, and no benefits will be payable.

(B) Suicide Exclusion:
