03 Making the Most of Your Plan

Premium Frequency Allowed:

The policyholder may elect to pay premiums in Yearly or Monthly frequency. Following factors are applied to annual premium (after discounts, if any) when paying premiums in monthly frequency.

Premium Frequency	Modal Factor
Yearly	1
Monthly	0.0867

High Premium Benefit:

For annualised premium of ₹ 2 lakh and above, the Guaranteed Maturity Benefit payable will be increased by 1%.

For Life Assured aged 40 with premium of ₹ 2 Lakh p.a. for PPT 7 pay, term of 40 years and channel other than online will receive Maturity Benefit of ₹ 2,00,000*8 *1.01 = 16,16,000 along with GI of ₹ 1,12,340 i.e. 16,16,000 * 69.52/1000 per annum rounded to nearest multiple of 10.

Alteration of Premium Frequency:

During the premium payment term, the policyholder has an option to alter/change the premium payment frequency as available under the policy. The policyholder can exercise such option only on policy anniversary.

What happens in case of missed premiums?

A grace period of fifteen days, where the policyholder pays the premium on a monthly basis and 30 days in cases of Yearly mode will be allowed. This period starts from the due date of each premium payment. In case of death during grace period the policy is considered as in force and the Death Benefit under the policy will be payable after deductions of all premiums falling due and unpaid during the policy year of death.

However, if you fail to pay your premium before the expiry of the grace period:

- **Where your policy has not acquired surrender value:** Your policy will Lapse
- **Where your policy has acquired surrender value:** Your policy will continue with reduced benefits (as a Reduced Paid up policy)

What happens once your policy Lapses or becomes Reduced Paid up?

Lapse:

If you have not paid the due premiums for the first two consecutive full years within the grace period, the policy lapses. Life cover ceases and no benefits will be paid under the lapsed policy till the policy is revived.

Reduced Paid-up:

If the premiums due under this policy have been paid for at least first two consecutive full policy years and subsequent premiums are not paid, then the policy will acquire Reduced Paid-up status. The reduced paid-up policy will continue with the following benefits:

Guaranteed Income under Reduced Paid-up Policy:

Paid-up Guaranteed Income will be payable provided Life Assured survives till the end of relevant policy year.

$$\text{Paid-up Guaranteed Income} = \frac{\text{Total Number of premiums paid}}{\text{Total Number of premiums payable}} \times \text{Guaranteed Income}$$

Maturity Benefit under Reduced Paid-up Policy:

On survival of the Life Assured to the end of the policy term, the paid-up Guaranteed Maturity Benefit will become payable and the contract will cease immediately.

$$\text{Paid-up Guaranteed Maturity Benefit} = \frac{\text{Total Number of premiums paid}}{\text{Total Number of premiums payable}} \times \text{Guaranteed Maturity Benefit}$$

Death Benefit under Reduced Paid-up Policy:

On death of the Life Assured during the policy term the paid-up sum assured on death as defined below will be paid as lump-sum and the contract will cease immediately. The below death benefit will be reduced by any paid-up Guaranteed Income paid after date of death.

$$\text{Paid-up Sum Assured on Death} = \frac{\text{Total Number of premiums paid}}{\text{Total Number of premiums payable}} \times \text{Sum Assured on Death}$$

Surrender Benefit under Reduced Paid-up Policy:

On surrender of Reduced Paid-up policy, the higher of Guaranteed Surrender Value or Special Surrender Value will be paid, and contract gets terminated.

Can you restore your Lapsed/Reduced Paid-up policy to the original benefit levels?

You can revive your Lapsed/Reduced Paid-up policy within five years from the due date of the first unpaid premium by following these simple steps:

- Giving a written request to the Company within 5 years from the due date of first unpaid premium and producing a proof of continued insurability
- Paying the outstanding premium amount with the applicable interest rate, currently 8.50% p.a. for FY 22-23
- The prevailing interest rate is calculated as equal to 10 year G-sec benchmark interest rate as on last working day of the previous financial year +1.50%, rounded up to the next multiple of 25 basis points and compounded on half yearly basis. The 10 year G-Sec rate on 31st March 2022 was 6.84% and the rate of interest for revival for FY 22-23 is 8.50% (6.84% + 1.5% + rounding to next multiple of 25 basis points)
- Fulfilling all medical and financial requirements as required by the Company as per the Board approved Underwriting Policy (the cost of medical examination, if any, will be borne by you i.e. Policyholder/Life Assured).

The Company reserves the right to accept or reject the revival of Lapsed/ Reduced Paid-up Policy as per the Board approved Underwriting Policy. Once the policy is revived, all the benefits will be restored to original benefits level.

Can the plan be discontinued in between?

Life insurance works best if you pay regularly and for the long term.

However, in case of an emergency/contingency, you can surrender your policy anytime during the policy term, provided it has acquired Surrender Value. Policy acquires Surrender value after payment of first two consecutive full policy years' premiums.

Surrender Value:

The surrender value payable will be higher of Guaranteed Surrender Value (GSV) or Special Surrender Value (SSV).

Special Surrender Value

Special Surrender Value is calculated by using the basis and the method as approved by the IRDAI from time to time. Special Surrender Value may be amended by the Company from time to time with prior approval from IRDAI.

Guaranteed Surrender Value

The Guaranteed Surrender Value (GSV) is defined as,

GSV

=

GSV Factor

X

Total Premiums Paid till the date of surrender

Where total premiums paid means total of all the premiums received, excluding any extra premium, any rider premium and taxes.

Are there any Riders available?

No.
